

Acknowledgements

As time swiftly passes, I find myself at the conclusion of my graduate studies. My awareness of personal shortcomings in my work and my thirst for modern business management knowledge have been the driving forces behind my fortunate opportunity to study at the renowned Dhonburi Rajabhat University. Since enrolling, under the guidance of my professors and through interactions with my peers, I have not only enriched my knowledge in business management but also broadened my horizons, changed my mindset, and enhanced my practical skills, while forming connections with many renowned teachers and outstanding fellow students.

I am particularly grateful to my professors at the Business Administration Education Center of Dhonburi Rajabhat University. During my MBA, their profound knowledge and patient teaching enriched my understanding of corporate strategy, management, finance, and other professional areas, thereby enhancing my problem-solving abilities and overall quality.

Special thanks to my advisor Asst. Prof. Dr. Jirapong Ruanggoon and my co-advisor Dr. Pakorn Opasvitayarux, whose diligent guidance was indispensable in the writing of this thesis. The professor's deep knowledge of business management and extensive research experience in academic writing have been incredibly beneficial. I sincerely appreciate the professor's hard work and dedication.

Lastly, I would like to express my gratitude to my family for their support, understanding, and help during my MBA studies and thesis research.
