

Acknowledgments

I would like to express my appreciation to all those who supported me in one way or another to successfully complete my dissertation. First and foremost, I would like to express my gratitude to my research supervisor, Dr. Wasutida Nakkasem, and Asst. Prof. Dr. Jirapong Ruanggoon for their encouragement and guidance throughout this research writing journey. I appreciate your mentorship, which played a significant role in shaping the direction of the study.

Secondly, I would like to thank the faculty members and professionals at Dhonburi Rajabhat University whose insights and knowledge greatly enriched my academic experience and nurtured my intellectual growth. I am greatly indebted to the study participants, without whose responses to my interviews and permission to conduct follow-up interviews, I would not have had the necessary material for my research. Thank you so much for generously allocating your time for my research work. Your insights were instrumental in providing real-world perspectives for this research dissertation.

Special thanks go to my fellow colleagues and classmates in the Programme of Master of Business Administration at Dhonburi Rajabhat University, who patiently supported me during the previous years of study and endured my anxieties and complaints.

Finally, I would like to express my sincere gratitude to my family and friends for their unwavering support during this research journey, which spanned years of distance learning. I apologize to my kids for being much grumpier than usual when I was writing my research. I also want to thank my wife for her support and motivation during the ups and downs of this academic endeavor. You have been wonderful, and as I promised, I will now clear the kitchen table of all the paperwork.

Once again, thank you all for your contributions towards the successful completion of my research.
