Abstract	(1)
Acknowledgments	(3)
Contents	(5)
Table of Contents	(7)
Table of Figures	(9)
Chapter 1 Introduction	1
Background and Significance of Research Problem	1
Research Objectives	4
Research Hypothesis	4
Scope of the Study	4
Conceptual Framework	5
Definition of Terms	8
Expected Benefits	8
Chapter 2 Literature Review	11
Management Innovation	11
Efficiency in Maintain Greening Community	13
Visitors Flowrate	15
Labor Force	16
Normal Management	18
Effective Control	19
Ideological Work	21
Related Research and Article	24
Chapter 3 Research Methodology	27
Research Design	27
Population and Sample Size	28
Research Instruments	30
Data Collection	33
Data Analysis	35

Contents (continued)

	Page
Chapter 4 Research Result	39
Current conditions, problems, and obstacles of managing green spaces during the COVID-19 pandemic in Suzhou City	39
Best practices in maintaining green spaces in the community during the COVID-19 pandemic period	50
Guidelines for management innovation aimed at maintaining green spaces in the community during the COVID-19 pandemic period in Suzhou City	57
Chapter 5 Conclusion, Discussions & Recommendations	75
Conclusion	75
Discussions	83
Recommendations	96
References	100
Appendix	109
Appendix A List of experts for research instrument assessment	113
Appendix B Certificate of Exemption from Human Research Ethics Review	119
Appendix C Questions for Expert Interview	123
Appendix D Example of Interview Record	129
Biography	133

Table of Contents

Tables		Page
3.1	Maintaining Greening in Community during the Period of COVID-19 Pandemic in Suzhou City Research Design by Coding Strategies	27
3.2	Questions used for interviews	30
4.1	China's government policies and community support for green space during the COVID-19 pandemic	39
4.2	Labor force comparison between the normal period and the period during the COVID-19 epidemic	45
4.3	Management innovations to address the problem or challenge of epidemic prevention and emergency management in Suzhou	58
4.4	Management innovations to address the problem or challenge of labor shortage during the pandemic in Suzhou	60
4.5	Management innovation to address the issues or challenges of high visitor traffic and difficult control in residential landscape parks during the epidemic in Suzhou	63
4.6	Management innovation to address the issue or challenge of low efficiency of community greening maintenance personnel during the Suzhou epidemic	66
4.7	Summary of guidelines for management innovation maintaining green spaces in the community during the COVID-19 pandemic period in Suzhou city	71
