

Acknowledgement

The past is a prologue. As this speech of thanks begins, it means that my time of this Master's degree will come to an end, beginning in the autumn of 2021 and ending in the summer of 2023. Looking back on two years of time, like fireworks, although short but also wonderful unforgettable, eyes are memories.

The peach and the plum don't say anything, the next leap. Thanks to my mentor, the teacher is knowledgeable, rigorous, modest, approachable, in professional learning to give me a lot of guidance, but also taught me a lot of life and life truth, is a valuable wealth in my life. I put forward a lot of valuable advice and specific guidance for my thesis, so that I can successfully complete the master's thesis.

The spring is full of grass, the mountains are high and the sea is deep. I would like to thank my parents for their upbringing, and thank you for your selfless support and silent efforts to let me concentrate on my study without distractions. It is the most solid backing for me to grow up and the driving force for me to keep moving forward.

Dream for the horse, not young. Thank you for never giving up, keep moving forward, never stop. On the road to the future, I hope I can still maintain an optimistic and positive attitude, look up to the stars, down to earth, and become a better myself!

At this point, the writing is finished. Thank you for all the encounters. May we all have a bright future!
